

# We Care Community

## Help our residents into their new home!

Our residential programs provide a safe place and intensive case management to single women and men in recovery from substance use as they work toward their goal of self-sufficiency. While here, residents build a strong recovery foundation, learn to manage their money, build life skills, and transition to long-term stable housing.

When our residents are ready to move, items are needed to help them set up their new homes in a comfortable way. Donating the items below helps ensure their home has a warm feel as they become self-sufficient community members.

## Your donations are a welcome gift for their new home!
